Day and Time of the Wedding Ceremony

Any Day / Any Time

Dressing of the Matrimonial Bed

It is Greek tradition for unmarried female relatives and friends to make the bed of the bride and groom with island-style linens. When the "wedding bed" is prepared, babies and small children of relatives and friends are gently rolled on the bed, along with money and rose petals, to enhance fertility. In your case, we prepare the matrimonial bed for you as a surprise for the first evening of your married life.

Flowers

Inform us of your favorite flowers and colors, so we can contact our florist to arrange it, in advance. Just keep in mind the different climate on the island. You can also choose the design of the bridal bouquet and floral arrangements. If you have photos, they would be very helpful.

Traditional 2-Piece Band

Two musicians can escort the bride to the ceremony area and later play for the newlyweds and guests, adding a festive touch to this special moment. The band will play for approximately 1 hour.
